The Agency, LLC Insurance Specialists To Offer Access To Workers' Compensation Insurance

Sparks, MD: The Agency, LLC Insurance Specialists, the MGA for Indemnity Insurance Corporation of DC (IICDC), announces that it will begin to provide access to Workers' Compensation Insurance for bars, restaurants, and nightclubs. Appointed brokers will be able to place Workers' Compensation risks with unaffiliated A rated admitted carriers. The Agency believes brokers will find rates for such coverage to be extremely competitive.

"An increasing number of our brokers have voiced interest in placing their Workers' Comp risk through us," says The Agency's Jeffrey Cohen. "We take pride in responding to the needs of our brokers and are pleased to provide this program as an accommodation." In an extensive broker research study conducted in late 2009 on behalf of IICDC to identify potential areas of program enhancement, Workers' Compensation Insurance was one of the most frequently cited product needs. "Our brokers asked and we responded. We're always looking at opportunities to make it easier for our brokers to do business with us," says Mr. Cohen.

-More-

The Agency is now providing Workers' Compensation quotes on submitted business from eight states: Connecticut, Delaware, Florida, Maryland, New Jersey, New York, Pennsylvania, and Virginia; and plans to extend the program to California, Nevada, Oklahoma, Texas, and Washington, D.C. by mid- to late August. Acord Workers' Compensation applications and appropriate loss history are required for submission; complete submissions should be emailed to **workcomp@icdc.com**.
